

HEALTH & SAFETY POLICY

Kazi Technologies Ltd – Uganda

8.1 Purpose of the Health & Safety Policy

Kazi Technologies Ltd is committed to providing and maintaining a safe, healthy, and secure working environment for all employees, contractors, visitors, and clients.

The company recognizes that workplace safety is a shared responsibility and is committed to:

- Preventing workplace injuries and accidents
- Promoting employee wellbeing
- Complying with applicable health and safety regulations in Uganda
- Maintaining safe systems of work
- Encouraging a culture of safety awareness and accountability

All employees are expected to actively support workplace health and safety initiatives.

8.2 Workplace Safety

Kazi Technologies Ltd will take reasonable steps to ensure that all work environments are safe and suitable for employees.

8.2.1 Safe Working Environment

The company will:

- Maintain safe office facilities and equipment
 - Provide adequate lighting, ventilation, and sanitation
 - Ensure workspaces are organized and free from unnecessary hazards
 - Conduct regular safety inspections where necessary
-

8.2.2 Safety Equipment

Where applicable, the company may provide:

- Protective equipment

- Emergency tools
- First aid supplies
- Fire safety equipment

Employees must use provided safety equipment appropriately and responsibly.

8.2.3 Risk Management

The company may:

- Conduct workplace risk assessments
- Identify potential hazards
- Implement preventive and corrective measures

Management reserves the right to restrict unsafe activities or environments where risks are identified.

8.2.4 Workplace Cleanliness

Employees are expected to maintain clean and organized workspaces to reduce:

- Accidents
 - Fire risks
 - Equipment damage
 - Health hazards
-

8.2.5 Health and Wellbeing

The company encourages:

- Reasonable work-life balance
- Responsible workload management
- Mental wellness awareness

Employees experiencing health-related concerns affecting work should notify HR or management where appropriate.

8.3 Employee Responsibilities

All employees share responsibility for maintaining workplace safety and complying with company safety standards.

8.3.1 Compliance with Safety Procedures

Employees must:

- Follow all health and safety instructions
- Comply with workplace safety procedures
- Participate in required safety training
- Use company equipment properly

Failure to comply with safety requirements may result in disciplinary action.

8.3.2 Reporting Hazards

Employees are required to immediately report:

- Unsafe conditions
- Workplace hazards
- Damaged equipment
- Accidents or injuries
- Fire risks
- Security threats

Hazards should be reported to supervisors, HR, or designated safety personnel as soon as possible.

8.3.3 Incident Reporting

All workplace incidents, including minor injuries or near misses, should be documented and reported promptly.

Timely reporting helps:

- Prevent future incidents
 - Improve workplace safety measures
 - Support proper investigation procedures
-

8.3.4 Responsible Conduct

Employees must avoid behavior that could endanger:

- Themselves
- Colleagues
- Visitors
- Company property

Unsafe conduct includes:

- Reckless behavior
 - Ignoring safety procedures
 - Unauthorized use of equipment
 - Tampering with safety systems
-

8.3.5 Alcohol and Substance Use

Employees must not:

- Work under the influence of alcohol or illegal substances
- Possess illegal substances on company premises

The company reserves the right to take disciplinary action where substance abuse creates workplace safety risks.

8.4 Emergency Procedures

Kazi Technologies Ltd maintains emergency procedures to protect employees and visitors during emergencies.

8.4.1 Emergency Situations

Emergencies may include:

- Fire outbreaks
 - Medical emergencies
 - Natural disasters
 - Security threats
 - Power failures
 - Hazardous incidents
-

8.4.2 Evacuation Procedures

Employees must:

- Follow official evacuation instructions
- Use designated emergency exits
- Proceed calmly to assembly points
- Avoid panic or obstruction during evacuation

Employees should not re-enter company premises until authorized to do so.

8.4.3 Emergency Exits and Equipment

Emergency exits, fire extinguishers, and safety equipment must:

- Remain accessible at all times
- Not be blocked or tampered with

Employees should familiarize themselves with:

- Emergency routes
 - Assembly points
 - Safety contacts
-

8.4.4 Fire Safety

Employees must:

- Report fire hazards immediately
- Follow fire drill procedures
- Use fire equipment only where trained and safe to do so

False alarms or misuse of fire equipment may result in disciplinary action.

8.4.5 Medical Emergencies

In the event of medical emergencies:

- Employees should notify designated personnel immediately
 - First aid assistance should be sought where available
 - Emergency services may be contacted where necessary
-

8.4.6 Emergency Drills

The company may conduct periodic:

- Fire drills
- Safety simulations
- Emergency preparedness exercises

Participation in emergency drills is mandatory unless otherwise exempted.

8.5 Remote Work Safety

Employees working remotely are expected to maintain safe and appropriate work environments.

8.5.1 Home Workspace Expectations

Remote employees should:

- Use safe electrical setups
- Maintain ergonomic workspaces

- Avoid unsafe working conditions
-

8.5.2 Reporting Remote Work Incidents

Employees should report work-related incidents occurring during remote work where relevant.

8.6 Visitors and Contractors

Visitors and contractors on company premises must:

- Follow safety instructions
- Comply with emergency procedures
- Avoid unauthorized access to restricted areas

Employees hosting visitors are responsible for ensuring visitor compliance with basic safety rules.

8.7 Policy Violations

Failure to comply with health and safety requirements may result in:

- Removal from unsafe activities
 - Disciplinary action
 - Suspension of workplace access
 - Further legal or regulatory consequences where applicable
-

8.8 Continuous Improvement

Kazi Technologies Ltd is committed to continuously improving workplace safety through:

- Employee feedback
- Risk assessments
- Safety reviews
- Training and awareness programs

Employees are encouraged to contribute suggestions for improving workplace health and safety standards.
